TRANSFORMERS FOR EVERY PURPOSE

TRADE THORDARSON MARK

500 W. HURON ST. COR. KINGSBURY

CHICAGO

April 6th, 1928

Mr. Frank J. Jutrash,
c/o The Milwaukee Radio Amateurs Club, Inc.,
385 11th Avenue - Apartment 5
Milwaukee - Wisconsin

Dear Mr. Jutrash:

We are very pleased to comply with the 3rd paragraph of your letter of April 3rd in which you ask for cooperation from the Thordarson Electric Mfg. Co. in the way of sending samples of our transmission equipment for use as prizes. We have entered an order for one plate supply transformer, T-2387, 300 volt amperes 1000 and 1500 volts each side of center tap and also one filament supply transformer 12 volts, 80 volt amperes. These transformers are marked on the attached catalog sheet and will be addressed to your general office, 601 Enterprise Building, Milwaukee.

We make but one request in this connection and that is that you supply us with the names of the winners of the prizes that we are donating.

If it is possible at the time of your convention, we will endeavor to get some one up to Milwaukee to address your association.

Very truly yours

THORDARSON ELECTRIC MFG. CO.
